

SPEAKER BIOGRAPHY

Amy Moffatt
Senior Manager
Toyota Motor North America
Operations Management Development Division

Amy Moffatt is Senior Manager in the Operations Management Development Division of Toyota Motor North America with responsibility for the strategic deployment of Toyota Production Systems. She was formerly a Manufacturing Manager at the West Virginia Powertrain facility.

Prior to her career at Toyota, Amy worked as an Engineer for Monsanto, an Engineer and various levels of management for The Goodyear Tire & Rubber Co, Plant Manager of TWfitting (tier-one supplier to Mercedes-Benz), and Plant Manager at Danaher.

Amy grew up in Pinson, Alabama, received her Bachelor's in Electrical Engineering at the University of Alabama, and later earned a Master of Science in Engineering and Technology Management from Oklahoma State University.

Amy lives in Prosper, Texas, where she resides with her husband, her 11-year-old daughter, and her 9-year-old son. Amy also serves as the President of the Southern Automotive Women's Forum, a non-profit dedicated to the support of women in the Automotive Industry and provides scholarship and support to young ladies to pursue STEM education in the hopes that they will choose to work in the Automotive Industry in the future.
